Celebrations at Southern Green

Huge congratulations this month to Liam, Ariana, and Ros! Liam has played a key role in the development of the business and has now been promoted to Director. Ariana is now a Chartered Landscape Architect, after passing her LI Chartership exam at first attempt! And last but not least, Director Ros Southern has been appointed as a Design Council Expert at the Design Council England's national panel. Find out more about the achievements at Southern Green [here](#).

South Cliff Gardens

Construction of the new [Beeforth's Hive Operations and Community Centre](#) with outdoor classroom at [South Cliff Gardens](#) is underway. The foundation has been poured and steelwork is beginning to appear from the depths - a literally ground breaking moment in the scheme. This £6M restoration project in Scarborough's South Bay is one of the NLHF and Community Fund's biggest investments. It is hoped that Beeforth's Hive will provide a home for workshops, skill building and guided volunteer days, with community groups in place to protect the gardens in the future.

'The Curtain Rises'

Works at Seaton Delaval Hall have now been completed. The registered Grade II* estate is one of the most important estates in the North East, and is also reputedly one of John Vanbrugh's finest works. Southern Green is thrilled to have been part of this wonderful 4 year journey, working together with a design team of specialists. Find out more about the project [here](#).

Canons Play is open!

Our exciting new play space at the NLHF restoration project at Canons, London is now complete and open to the public! Studio Hardie have designed a wonderful play creation including the [Scrumpled Paper Tower](#) designed directly from paper sculptures made by local children. More on this coming soon on our [website](#).

Alfresco Eating

In response to the pandemic, Newcastle eateries have rapidly adapted and improved their [alfresco eating spaces](#). Southern Green have worked on a range of lively outdoor spaces in Newcastle, such as [Bigg](#)

[Market](#), and [NE1 Parklets](#), and more are on the way, so keep an eye on our website and Instagram page.

Southern Green are going wild...

...ecologically speaking! We've recently been appointed as Lead Consultant working together with MKA Ecology on proposals for the 4070 acre [Bulwick and Harringworth Estate in Northamptonshire](#). Our client has

a thrilling vision for rewilding their land, with a wider vision to create county scale ecological corridors and vast interlinked ecosystems.

Our passion for the environment and devotion to health and wellbeing are not a 9-5 thing at Southern Green. Outside of work the staff have certainly been enjoying the warm summer evenings by doing all sorts of activities and mini projects of our own - [check here](#) to get an insight into some of the things we all get up to in our spare time.

Woodside Sports

After developing a [masterplan](#) and feasibility study to enhance the existing sporting at Woodside, Southern Green is delighted to be appointed as lead consultant for the detailed design. Working alongside Xsite Architecture, our team are appointed to design and deliver a [new £6.3m Community Sports Hub Village](#), including new adventurous play zones, and enhancements to the parkland setting. We are excited to see how the project develops, keep an eye on our website for further info!
