

## Senior Landscape Architect

Southern Green Ltd is looking to recruit experienced Landscape Architects to join our award-winning team in the North East. We are interested to hear from highly motivated and enthusiastic applicants who have a passion for delivering excellence in landscape assessment, design and delivery of projects, as well as an appetite for learning and developing skills.

The successful candidate will be involved in all stages of the development of our planning sector. The role will also include responsibility for design projects at all stages of the planning, design and implementation process, working closely with our team as well as external consultants.

Southern Green specialise in urban regeneration, historic landscape restoration, healthcare, play, landscape and visual assessment and master-planning. Tasks include preparation of digital visualisations and illustrations, report figures, landscape design proposals, planning applications, presentations and design competitions. Recent exciting projects undertaken include Summer in the City for NE1, Seaton Delaval Hall, Bigg Market, Harwoods Adventurous Playground and the recently LI Award nominated Oxhey Park in Watford.

Ideally, a minimum of 2 years post Chartership experience is desirable, however if required we have a very strong P2C track record with a number of experienced mentors within the team.

The office is situated just 5 minutes from the Tyne Bridge, Newcastle Quayside and Gateshead, with great transport links to the city. Since returning to work post Covid, various improvements to the office have been made, and these improvements and adjustments continue to benefit our staff.

Staff are supportive, sociable and partial to a slice of cake and pizza on a Friday. We absolutely love to get our hands dirty, and the opportunity to get experience at grass roots level is something we actively encourage – meaning this is not your average office job! Look out on Instagram and our website for blogs and what the team have been up to, at work and at home.

### Requirements:

- CMLi (ideally 2 years post Chartership)
- Talented individual and a good team player who is well organised
- Enthusiastic, adaptable personality, willing to 'have a go' and learn new skills
- Excellent written and spoken English
- Good knowledge of the English planning system
- Landscape assessment and photographic skills
- Experience of working directly with clients and other consultants
- Proven track record of delivering excellence
- Ability to work effectively and manage project teams
- Strong software skills in AutoCAD, Microsoft Office and Adobe Creative Suite
- Experience of report writing
- Driving licence preferred
- Relevant permits for working in the UK

Standard working hours are 9am-5pm Mon to Fri, with flexible working arrangements available on approval. Competitive salaries, LI subscription paid, CPD and training opportunities, 25 days annual leave, contributory pension and Cycle to Work scheme are some of the additional benefits available. Southern Green is an equal opportunities employer and a non-smoking office.

Salary – commensurate with experience
